

We travel extensively throughout California, mostly in areas where we have little to no access to radio stations. XM keeps us abreast of any traffic or weather problems we may come across. The service that XM gives us is extremely important, providing us the quality and variety not available elsewhere. Since we pay for these services it should not be up to the National Association of Broadcasters to dictate what we are permitted to hear. Respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that we demand and deserve.
